Hi Lou,

Is this an FYI or did you want EPA to respond?

Please advise.

Thanks.

Subject: West Lake/Bridgeton Landfill

Lou,

Thanks for your time on the phone just now. Questions MCE has:

1. Who ordered Republic Services to delay construction beginning April 22, 2013?
2. When will the removal of the old leachate collection system take place?
3. When will the EPA ASPECT anti-terrorism plane data be made available? Linked below is information regarding the EPA flyover and reports of detecting radiation: <http://www.kmov.com/news/editors-pick/EPA-plane-detects-radiation-at-Bridgeton-Landfill-197213011.html>
4. When will DNR's "enhanced air monitoring" data be made available?
5. Will DNR make results public from the "enhanced air monitoring" data before the removal of the old leachate collection system, which is suppose to increase odors?
6. What communication strategy (if any) is being established to give people impacted by the Bridgeton landfill up-to-the-minute information regarding the remedial efforts at the landfill?

I copied Kat Logan Smith from MCE to this email as well in case she has thoughts on the landfill. Kat was also on the call last week. Thanks for your time Lou and I'll see you Thursday night.
